

Papa, why we are no longer having a vacation like going out of HK just like before?

It is because of the pandemic, it is not safe to go out from HK.

I'm sad, I feel boring already.

We should be grateful of what we have and where we are right now, many people are in hospital recovering from Covid-19.

You are right Mama and Papa.

As long that we are all healthy and together as a family, we should be grateful. Just pray that everything will become normal again.

Let us pray together that everything will go back to normal and be grateful for what we have.
